

PFAFF 8320 Langarm / Longarm

Features

- ▶ No buttons, no pressure gauges: A touch screen and 100% parameter control
- ▶ All parameters are electronically controlled: Integrated control board monitors heat-sealing temperature, air flow, roller pressure and the two motors for the top and bottom roller
- ▶ Proportional valves enable the dynamic adjustment of air flow and roller pressure
- ▶ Two precision-controlled motors permit an extremely accurate differential transport
- ▶ PFAFF 8320-010: = Hot-wedge version
Hot-wedge width from 7 - 30 mm
- ▶ PFAFF 8320-020: = Hot-air version
Standard nozzle width 15 - 40 mm

Specifications

- ▶ Max. speed: 0.5 to 10.0 m/min.
- ▶ Optional up to: 20 m/min.
- ▶ Pass max.: 1,000 mm (longarm version)
