

### Features

- ▶ Two post versions available with 30.0 mm and to 50.0 mm roller width. Height 825.0 mm
- ▶ Mobile version (8309-026) on tracks, with unlimited length
- ▶ Easy handling of heavy, large materials with mobile machine version
- ▶ Low energy consumption (hot-wedge <1,5 KW)
- ▶ Special applications possible by special guides and attachments
- ▶ Hot wedge: no welding fumes
- ▶ Welding system for the future: New developed materials (PVC, PU as well as PE, PP) as well

### Specifications

- ▶ Max. welding temperature: 600°C (hot-wedge max. 450°C)
- ▶ Max. speed: 10 m/min.
- ▶ Light running: 20 m/min.
- ▶ Seam width: 15.0 to 50.0 mm
- ▶ Material thickness: 0.2 to 3.0 mm
