

**AZ7020SD-Y5DF-8/BT43/SC18**

**2 Needle- 4 Thread Speed Dry Overlock Machine with Semi-Automatic Backtacker, Self Cleaning System and Direct Drive Yamato Electronic Compact Servo Motor**

Yamato AZ7000SD feature achieves:

**High Speed** - Max. 7500 rpm for higher productivity.

**Dry Head** - Upgraded "Non stain" technology for stain free finish.

**Higher Durability** - for lowering your investment cost for equipments in a long run.

Why Dry-Head Technology ? see

**Upgraded "Non-Stain" technology**

Efficient Micro Fluid Lubrication

At exactly when and where it's needed

Oil film is wiped away before moving parts are exposed

Oil circulation.

“Speed + Dry finish” achieved by...

- High-tech Parts for Minimized Friction
- Minimal Lubrication

MINIMAL LUBRICATION

- Special Sealing Technology
- Forced Circulation System
