

BLX series is a flatbed, 2 needle, bottom coverstitch, beltloop making machine with front knife. It is a new model which has further improvement of B2000C. New features are:

- 1) The support (front) presser foot is independent against main presser foot, so that it is easily detached and also it has a stopping function to keep at lifting position. Therefore, extremely easy for the positioning of folder when starting of the sewing.
- 2) Equipped with new adjusting dial of lower knives which can be adjusted both spring pressure of lower knives (left and right) equally, so that they cut the fabrics surely.
- 3) Easy to change the stitch length due to newly equipped with feed adjusting mechanism.
- 4) Adjusting knob enables you to fine tune the cutter with ease and produce belt loops of various size (8~20mm). For bigger belt loops (over 16mm), separate needle plate and feed dog are available. Therefore, BLX series has a wide range operation to meet several size of belt loops.

Option P: Rear Puller
BK-20: Automatic Cutting Device
