

DESCRIPTION

MANUALLONG/SHORT-HANDLE END CUTTER

Easy installation with the high-speed motor which as strong horsepower is easy for cutting and thickness of fabric-the cutting part is smooth, cutting precisely, and can save time and material. This machine adopts Japanese products, auto-counter and knife sharpening device, so the failure rate is low. Without rebound device can not only prevent shortening life of grindstone and blade from excessive wears but prolongs their life. The telescopic long-handle and automatic initiating device can supply power continuously for heavy material and plastic leather, which can have more smooth and precise cutting. 100% made in Taiwan.

CS-500/CS-500L	SPECIFICATIONS
Knife Size	110mm (4-1/4") Round Knife
Pressing Height	Standard 20 cm (8")/Max. 30cm(11-1/2")
Available Fabric	General Knitted, Woven Fabrics
Knife Crossing Height	12mm only applicable to batting fabric of bedding

The applicable restriction of the special fabrics (the hardness of fabric can not be too hard)	CS-500	CS-500L
