

CS-600A

DESCRIPTION

AUTOMATIC END CUTTER

Easy installation: the knife stroke can be set just by one key operation. Digital adjusting the elevating height can save labor and improve the production efficiency. The high-speed motor has strong horsepower which is easy for cutting any thickness of fabric. The cutting and pressing fabric work can be completed all at once, the cutting part is smooth, cutting precisely, and can save time and material, This product adopts knife head driving belt, its abrasion resistance is strong and has long operating time, so it doesn't need to be replaced frequently. 100% made in Taiwan
