

FD-62DRY-07MS-1/WDA

4 needle 6 thread Feed-off-the-arm Both Cut Flatseamer with "Magic DRY" technology (with Air-operated Automatic Chain Cutter)

A both cut flatseamer for the garments made with fine materials. Exclusively designed sewing parts and lap former ensures positive feeding performance and ideal overlapping. Unique "presser foot floating system" gives minimum necessary pressure on fabric and prevents the work from waving and damage.

With automatic Thread Chain scissors-cutter placed directly behind the presser foot. Cutting at the beginning and at the end of sewing process, controlled by photo-cell. With Thread Chain waste and fabric waste suction.

Yamato FD-62DRY has been developed for further advanced protection for your garments against oil stain, without sacrificing machine performance. Unique "Magic Dry" technology

(= non-liquid lubrication inside sealed sewing head) has been introduced to achieve the feature.

|"Magic DRY" technology to minimize risk for oil stain, which gives negative impact on garment quality and cause downtime, while ensuring smooth machine run and long life.

Your Practical Solution in Making Value-added Garment with Quality Finish... Plus, It Saves!

Neat stitch formation and optimal overlap adds further value on your garments!
 Lower the oil and wax content in sewing and during your good looking, especially for garments assembled with different colored fabric side by side.

No stain = No worry!
 Yamato's unique "Magic Dry" technology (a sealed machine structure and hybrid lubrication system) release you from worry about oil stain, while maintaining high performance of machine. You can save much downtime and productivity in no particular.
