

Highlead GA2688-L

Extra Long Arm Cylinder

Long Cylinder Arm Extra Heavy Duty Walking Foot Sewing Machine

(Bottom feed, needle feed & walking foot top feed)

The GA2688-L is Highlead's special extended extra heavy duty extra long cylinder arm machine.

The sewing machine's cylinder shaped arm has been extended to give approximately 960mm clearance to the right of the needle.

It features an extra heavy duty triple feeding action by way of: bottom feed, needle feed and walking foot top feed.

It is fitted with an extra large shuttle hook assembly (204 type) for use with heavy weight & extra heavy weight materials and threads.

A stitch length of up-to 11mm is possible and the machine has a reverse stitch lever as standard.

The special extra large shuttle hook and bobbin capacity offers high efficiency in sewing products using extra thick thread.

The bobbin winder is mounted on top of the sewing machine head for easy use and quick change over.

The presser foot has an extra high lift and can go up to 20mm, allowing for a large range of extra heavy weight material to be used.

The walking foot action is fully driven and combines with the bottom feed and needle bar feed to produce a positive feeding motion for extra heavy use.
