High Speed & High Specification

Heavy Duty Twin needle Walking Foot Sewing Machine

Photos show single needle model

Highlead GC20688-2D high speed heavy duty twin needle compound feed walking foot lockstitch sewing machine with automatic thread trimmer and advanced features including: quick presser foot stroke adjustment and integrated second stitch length adjuster.

For use in many sections of the heavy duty industry including the manufacture & topstitching of high-end house hold upholstery, car upholstery, office furniture, leather goods, filters, technical textiles, plastic & laminated products etc.

Its heavy duty compound triple feeding action by way of: bottom feed, needle feed and walking foot top feed, guarantees effective handling of medium/heavy weight materials, leather and fabrics etc.

The Highlead GC20688-2D is very much a premium high specification twin needle sewing machine model and includes features like: heavy duty sewing speeds up-to 3500 stitch per minute, longer 300mm under arm clearance, automatic thread trimmer, automatic seam back-tacking, automatic foot lifting device, digital stitch program box and easy to use under arm controls etc. All these features come as standard and are not expensive options; so you get a "top of the range" machine straight away.
