

Highlead GK31058-3

High Speed 3 Needle Cover Seam Machine (Seam-Cover)

The GK31058-3 is a high speed cover seam (seam-cover) machine from Highlead.

It produces the Stitch type 605 by using three straight needles, one looper, one spreader and needle bar thread taking-up.

The machine can be used for full top & bottom cover or you can choose to do bottom only cover. The option of using 2 or 3 needles is also available for different sewn finishes.

It has many outstanding features such as easy adjustment of bottom differential feeding, easy dial adjustable stitch regulation and easy threading etc.

The fully sealed bottom sump is equipped with automatic oil lubrication and filter system; which enables the machine to run smoothly with low noise and vibration.

Optional attachments are available which increase the machines versatility and uses include: cover lap seaming, covering seaming and decorative seaming for under wears, sport sears, T-shirts, knitting fashion, etc.
