

VT1502-164M-55H/Y

Feed-Up-The-Arm- Interlock Stitch Machine prepared for attaching tape Shoulder-to-Shoulder

Yamato VT-Series is dedicated to ideal sewing experience. The machine can perform neat and uniform finish on both light-to heavy weight fabric, with only little adjustment. Furthermore, various fabric guides enable sewing, covering, hemming and binding freely. Yamato shows on IMB2009 this machine for attaching tape from shoulder-to-shoulder operation.

Yamato VT Series, is developed basing on Yamato's long experience of preventing oil leakage, to satisfy the various requirements of sewing factories. Its wide applicability & user-friendly design, creates perfect stitching & seaming. Meanwhile, it enhances the productivity, reduces the cost.

Yamato VT1500 CLASS
 2.2 Motor Feed-up-the-arm Interlock
