

VW series is a basic & economical model of flatbed, top and bottom coverstitch machine.
 Available 2 ~ 4 needles (model W-8103-1S). This series has a wide range of applications for plain stitching, tape binding, covering, attaching pocket facings, shell (scallop) stitching plus tape binding etc.
 Newly developed independent needle guard removes the follow up adjustment after changing the stitch length.
 This series is the most suitable for sewing knit fabrics with stabilized stitch and superb stitch formation.
