

Z7125SD-Y5DF-8/K2/SC18

2 needle 4 thread Speed Dry Overlock machine with pneumatic thread chain trimmer and self cleaning system
High Speed for better productivity + Dry Finish for less downtime

Max 7000 rpm + Stain-Free Finish ! Unique "Minimal Circulated Non-solid" Lubrication System, which gives optimized lubrication for each moving part for smooth run and long machine life.

Overlock width is convertible from 5-8 mm, only by changing stitch plate and presser foot stitch tongue. No re-adjustment required! (Z7120SD and Z7125SD)

Upgraded "Non-Stain" technology

Efficient Micro Fluid Lubrication

At exactly when and where it's needed

↓
Oil film is wiped away before
moving parts are exposed

↓
Oil circulation.

"Speed + Dry finish" achieved by...

- High-tech Parts for Minimized Friction
- Minimal Lubrication
- Special Sealing Technology
- Forced Circulation System
